工程造价：一億四千七百萬元
完成日期：2001年

Various lots of lands spreading over the valley of Tat Tit Yan were targetted for the Project as a comprehensive residential development. Master layout plan in harmony with the topography and the tranquil environment of the valley were produced. Again, the village houses were planned and design as low density development houses and this archnieving a breakthrough for traditional village houses.

建築師將分佈於打鐵𨋖山谷上的數個地段，跟據山勢及周圍地理環境，巧妙地作出與恬靜山谷環境和諧配合的整體規劃設計。同時，對於每間丁屋更作出精心的造形設計，更是傳統丁屋設計的另一突破。
